ML Quality Assessment

Example system 1

Date: 2023-12-01

Business Criticality: production critical

Maturity level: 5/5

Maturity Status: Quality standards are met

Quality score: 100/100

Summary: The system is of very high quality and at the expected maturity. Well done!

Congratulations! Your model is fully mature

Satisfied quality aspects

- **Repeatability**: The ML lifecycle is automated (even partially).
- **Accuracy**: Input data are validated *or* the model is compared against a simple baseline.
- **Adaptability**: The ML system is (even partially) adaptable.
- **Ownership**: The ML system has a team assigned as owner.
- **Usability**: The model's output can be accessed.
- **Testability**: At least 20% of the source code is tested.
